## Skills

- ✓ C / C++
- ✓ JavaScript
- ✓ React & Node.js
- ✓ HTML5 / CSS3
- ✓ Git & GitHub
- ✓ OOP Design
- ✓ SFML Graphics

## Languages

- ◆ English — Fluent
- ◆ Urdu — Native

## Coursework

OOP   Prog. Fundamentals   ICT

## Education

### FAST National University of Computer and Emerging Sciences

Bachelor of Artificial Intelligence · Chiniot-Faisalabad Campus

2025 – Expected June 2029 | Semester: 2 / 8

- Pursuing a specialised degree in Artificial Intelligence covering intelligent systems and software development.
- Completed coursework in OOP, Programming Fundamentals, and ICT.

## Projects

### Sherbet Holmes – Dessert Shop Website

Group Project · HTML5, CSS3, JavaScript

- Developed a responsive multi-page website with a product catalog, customer reviews, and ordering workflow.
- Implemented interactive features: shopping cart, image carousel, and responsive navigation.
- Designed a modern UI with emphasis on accessibility, responsiveness, and consistent visual identity.

### Smart Quiz Game System

Group Project · C++, File Handling

- Built a console quiz app with multiple categories, three difficulty levels, randomised questions, and timed gameplay.
- Implemented lifelines (50/50, Skip, Replace, Extra Time), streak bonuses, and score calculation.
- Designed a file-based system for question management, high-score tracking, and answer review.

### Chess Game – Interactive Desktop Application

Group Project · C++, SFML, Object-Oriented Programming

- Built a modular OOP chess engine with full move validation, check/checkmate detection, and pawn promotion.
- Applied abstract classes, inheritance, polymorphism, and composition for a scalable architecture.
- Integrated SFML for a graphical interface with move highlighting, texture caching, and real-time rendering.

## Soft Skills

- Team Collaboration
- Communication
- Critical Thinking
- Attention to Detail
- Problem Solving
- Time Management
- Adaptability
- Self-Motivation

## Interests

🌐 Web Development

📖 AI Research

🔒 Ethical Hacking
